High School

The Mabini Academy
2016 - 2020

OPERATIONAL & FINANCIAL SKILLS

- **Cash & Banking Operations**: Handling company deposits, clearing, and post-dated checks (PDCs).
- **Cash & Treasury Support:** Accurate cash counting, bank deposit preparation, PDC tracking, and daily transaction logging.

IT - RELATED SKILLS

- **Frontend:** HTML5, CSS3, JavaScript (ES6+), Vue.js, Tailwind CSS.
- **Backend:** PHP, Laravel Framework, MySQL Database Management.
- **Technical Skills:** Software Troubleshooting.
- **Digital Tools:** Figma, Canva, CapCut, Microsoft Office Apps.

WORK EXPERIENCE / CAPSTONE PROJECTS

WEB DEVELOPER (INTERN) — **MARCH 2026 - MAY 2026**

SG Dental Clinic

Collaborated on the development of an online appointment and booking web application tailored for a dental clinic. Utilized the Laravel framework and Tailwind CSS to build functional, user-friendly frontend interfaces and backend logic. Assisted in designing and structuring the relational database management system using MySQL to securely store user and booking data.

NU DROP: A Secure Document Request and Online Payment System

Main Developer / Capstone Leader

- Successfully deployed and adopted by National University Lipa to actively streamline official university document requests and automate online payment processing for the campus.
- Designed and built the entire secure web application, implementing robust database management and strict user authentication to ensure data privacy.
- Authored a comprehensive technical operations manual for smooth system handoff, administrative training, and future maintenance.

MARKETING SPECIALIST/MANAGER/WEB DEVELOPER — **JUNE 2026 - SEPTEMBER 2026**

RAJA Marketing Consultancy Services

Operations & Financial Administration

- Financial Management: Executed regular treasury operations, depositing cash tranches and post-dated checks (PDCs) exceeding hundreds of thousands of pesos across corporate bank accounts with zero reconciliation discrepancies.
- Office Administration: Managed general facility operations, document printing, digital archiving, and supply logistics to maintain continuous office efficiency.

Digital Marketing & Web Development

- Web Engineering: Architected and deployed a responsive Single-Page Application (SPA) enabling buyers to browse land inventory, review lot details, and submit automated purchase inquiries.
- Search Engine Optimization (SEO): Established and verified business profiles on Google Search and Google Maps.
- Social Media Management: Directed official Facebook marketing channels, executing publishing schedules and managing client engagement across digital touchpoints.
